TEXTBOOK • 7th Edition
American Government
Political Development and Institutional Change

Cal Jillson, Southern Methodist University, USA
America’s past is present in all aspects of the contemporary political system. Cal Jillson uses political development and dynamics of change as a tool to help students understand how politics works now, and helps students think critically about how American democracy might evolve further, focusing in every chapter on reform and change. These revisions make the Seventh Edition better than ever:
• The latest details on all aspects of American politics, including the 2012 elections, keep students current
• Coverage of Obama’s full first term and heightened polarization in Congress help students see the importance of institutional development
• A renewed emphasis throughout on the importance of race, ethnicity, and gender in the development of American politics helps students understand the full picture of political participation.

In a streamlined presentation, Jillson delivers a concise and engaging narrative to help students understand the complexities and importance of American politics. Along the way, several pedagogical features foster critical thinking and analysis:
• “Struggling towards Democracy” discussion questions to provoke both critical thinking and class discussion on the most relevant issues
• “The Constitution Today” chapter opening vignettes illustrate the importance of conflicting views on constitutional principles
• Key terms defined in the margins on the page where they appear help students study important concepts
• Focus questions at the beginning of every chapter highlight the central learning objectives for students to look for, and marginal notes throughout the chapter indicate the relevant discussions for addressing these questions
• Colorful figures and charts help students visualize important information. "Let’s Compare" boxes analyze how functions of government and political participation work in other countries
• "Pro & Con" boxes bring to life a central debate in each chapter: from questions over campaign finance, bias in the media, and the balance between the president and Congress in war making, to judicial activism and restraint, gay marriage, and equitable taxes
• Timelines in every chapter gives students an at-a-glance reference to important stages in historical development.End-of-chapter summaries, suggested readings, and web resources help students master the material and guide them to further critical investigation of important concepts and topics.

American Government
Analyzing American Democracy
Politics and Political Science

Jon R. Bond, Texas A&M University, USA and Kevin B. Smith, University of Nebraska-Lincoln, USA
Analyzing American Democracy teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It is both an introduction to American politics and to the discipline of political science, reflecting the theoretical developments and empirical inquiry conducted by researchers. Every chapter highlights the most current research and discusses related public policy.

It demonstrates for students how to think critically and analytically, bringing theoretical insight to contemporary American politics. More than just a comprehensive overview and description of how American politics works, Jon Bond and Kevin Smith demonstrate how politics can be studied systematically. Throughout the text, they introduce students to the insights gleaned from rational choice, behavioral, and biological approaches to politics. Understanding these three social scientific models and their applications helps students get the most out of their American government course and out of this text—they learn a way of thinking that they can use to make sense of future challenges facing the American polity.

American Government and Popular Discontent
Stability without Success

Steven E. Schier, Carleton College, USA and Todd E. Eberly, St. Mary’s College of Maryland, USA
From the 1950s to the 1980s, a gradual antiparty realignment in America produced a new political system of remarkable durability and remarkable dysfunction. Schier & Eberly’s American Government and Popular Discontent teaches students to think critically and analytically, bringing theoretical insight to contemporary American politics. More than just a comprehensive overview and description of how American politics works, Jon Bond and Kevin Smith demonstrate how politics can be studied systematically. Throughout the text, they introduce students to the insights gleaned from rational choice, behavioral, and biological approaches to politics. Understanding these three social scientific models and their applications helps students get the most out of their American government course and out of this text—they learn a way of thinking that they can use to make sense of future challenges facing the American polity.

TEXTBOOK
In Defense of Politicians
The Expectations Trap and Its Threat to Democracy

Stephen K. Medvic. Franklin and Marshall College, USA
Series: Controversies in Electoral Democracy and Representation

Drawing on seminal work in political science, Stephen K. Medvic convincingly argues to the masses that blanket condemnation of politicians is both unfair and unwarranted. Medvic explains how cognitive biases in the way people reason often lead us to draw unjustified conclusions of politicians in general based on the malfeasance of some. He also demonstrates the necessity of ambition, the utility of politics for resolving conflicts peacefully, and the value of ideology in framing political choices.

TEXTBOOK
New Directions in American Politics
Edited by Raymond J. La Raja. University of Massachusetts, Amherst, USA
Series: New Directions in American Politics

New Directions in American Politics introduces students not just to how the American political system works but also to how the political science works. La Raja brings together top scholars to write original essays across the American government curriculum, capturing emerging research in the discipline in a way that is accessible for undergraduates. Contributors to New Directions combine substantive knowledge with skill-building analytical inquiry to highlight why the puzzles they seek to answer are critical for understanding American politics.

TEXTBOOK
Issues in American Politics
Polarized politics in the age of Obama
Edited by John Dumbrell. University of Durham, UK

This wide ranging book provides readers with a reliable and lively guide to contemporary American political practices, processes and institutions. Essays in the proposed volume will cover phenomena such as the Tea Party upsurge in the Republican Party, Obama’s health care reforms, recent changes to campaign funding emanating from the key Citizens’ United Supreme Court decision, US foreign policy after the War on Terror, Obama’s presidential strategy and issues relating to polarisation and partisanism in US politics.

2nd Edition
The Politics-Administration Dichotomy
Toward a Constitutional Perspective
Patrick Overeem. Leiden University, The Netherlands
Series edited by David H. Rosenbloom. American University, Washington, DC, USA

This book is about the so-called politics-administration dichotomy, the idea that politics and public administration should be separated in our theories and practices of government. While public administration academics typically reject it as an outdated and even dangerous idea, it re-emerges implicitly in their analyses. This book tells the story of how this has happened and suggests a way to get out of the quandary. It analyzes the dichotomy position in terms of concept, purpose, and relevance.

2012: 6-1/8x9-1/4: 242pp

The Digital Evolution of an American Identity

C. Waite, Hamilton College, USA

The Digital Evolution of an American Identity details how the concept of American individualism is challenged by the digital revolution. As digital media alter our print-dominant culture, assumptions regarding the relationship of the individual to the larger community become increasingly problematic. Current arguments regarding freedom of speech and confusion about what is meant by privacy illustrate the nature of the challenge.

C. Waite argues that though the transition from a print-based culture to the digital domain entails a global revolution, American culture will suffer the consequences of that revolution more profoundly than other cultures because the concept of American individualism is foundational to its democratic way of life.

INTRODUCTORY AMERICAN POLITICS

READER • 2nd Edition
Perspectives on American Government
Readings in Political Development and Institutional Change

Edited by Cal Jillson, Southern Methodist University, USA and David Robertson, University of Missouri - St. Louis, USA

The second edition of this much-admired book offers an accessible and coherent selection of readings illustrating for students the depth and contours of how American politics has developed over time. Grounded in foundational debates, classic political science scholarship, and the best contemporary analysis of American political development, this reader invites students to probe the historical dynamics that brought the United States to where it is today and how those dynamics are likely to affect its future course.

This well-designed and up-to-date reader is an invitation to instructors to draw your students into a deeper conversation on the key themes and topics in each section of your course. The second edition features:

• Revised introductions and selections
• 33 new readings
• Expanded sections on civil rights and civil liberties.

Jillson and Robertson have carefully edited each selection to ensure readability and fidelity to the original arguments. Their insightful editorial introductions frame the context in which these topics are studied and understood. Several key pedagogical tools help students along the way:

• An introductory essay provides an overview of American political development and current examples of why history matters

Chapter introductions to provide necessary context situating the readings in broader debates

• Head notes at the start of each reading to contextualize that selection

• Questions for Discussion at the end of each chapter, prompting students to draw out the implications and connections across readings

• Further Reading lists at the end of each chapter to guide student research

The broad readings in this volume take seriously the effort to present materials that help students make sense of the historical changes and institutional developments that are essential for understanding American government and politics today.

Contents:
1. The Origins of American Political Principles
2. The Revolution and the Constitution
3. Federalism and the American Political System
4. Political Socialization and Public Opinion
5. The Mass Media and the Political Agenda
6. Interest Groups
7. Political Parties
8. Voting, Campaigns, and Elections
9. Congress: Lawmaking and Domestic Representation
10. The President: Governing in Uncertain Times
13. Civil Liberties
14. Civil Rights
15. Government, the economy, and Domestic Policy
16. America’s Place in a Dangerous World

February 2014: 6.5x9.25: 568pp

TEXTBOOK • 6th Edition
American Civilization
An Introduction

David C. Mauk, University of Oslo, Norway and John Oakland

This hugely successful text provides students of American studies with the perfect background and introductory information on contemporary American life. Thoroughly revised, with new illustrations, case studies and companion website; this sixth edition of American Civilization covers all the central dimensions of American society from geography and the environment, government and politics, to religion, education, media and the arts.

August 2013: 246x174: 448pp
Hb: 978-0-415-82201-5: £70.00

TEXTBOOK
Liberty and Union
A Constitutional History of the United States, concise edition

Edgar J. McManus, Queens College, USA and Tara Helfman, Syracuse University, USA

Liberty and Union is a clearly written, comprehensive overview of American constitutional development. Covering American history from the founding of the English colonies to the latest decisions of the Supreme Court, this volume condenses the material found in the full two-volume work into a format more useful for one semester courses. It unites thorough chronological coverage with a thematic approach, offering critical analysis of core constitutional history topics in political, social, and economic context. A companion website contains links to case law, constitutional and historical documents, and related scholarly articles.

December 2013: 7x10: 688pp
Hb: 978-0-415-89286-5: £54.99
Pb: 978-0-415-89285-8: £22.99

Direct Democracy in the United States
Petitioners as a Reflection of Society

Edited by Shauna Reilly, Northern Kentucky University, USA and Ryan M. Yonk, Southern Utah University, USA
Series: Routledge Research in American Politics and Governance

Drawing on behavioral, historical and legal analysis to provide a more concrete depiction of individual petitioners, expert contributors examine the true personalities, motivations and expectations, successes and failures of petitioners in the direct democracy process and how they culminate in policy formation across the United States. A lucid contribution to the existing literature on direct democracy and an excellent resource for studying how petitioners are able to influence their communities beyond the ballot box.

Voting and Migration Patterns in the U.S.

George Hawley, University of Alabama, USA
Series: Routledge Research in American Politics and Governance

There is concern that American communities are becoming increasingly politically homogenous and this is because Americans are considering politics explicitly when determining where to live. This book examines how the American public has self-selected into geographically determined enclaves in a way that changes the behavior politicians, electoral outcomes, and the political culture at-large.

TEXTBOOK • 2nd Edition
American Electoral Democracy

Matthew J. Streb, Northern Illinois University, USA
Series: Controversies in Electoral Democracy and Representation

In this critical examination of the state of electoral democracy in the United States, Matthew Streb provides an analysis of the major debates that rage among scholars and reformers on subjects as diverse as the number of elections we hold, the use of nonpartisan elections, and the presidential primary process. Ultimately, Streb makes an argument for a less burdensome democracy, a democracy in which citizens can participate more easily.

Direct Democracy and Minority Rights

Daniel C. Lewis, University of New Orleans, USA
Series: Controversies in Electoral Democracy and Representation

Lewis conclusively demonstrates that direct democracy endangers rights of minorities and perpetuates a tyranny of the majority. While supporters of direct democracy advocate that it protects citizens from corrupt lawmakers beholden to special interests, Lewis’s investigation shows how mass participation exposes minority groups to negative policy outcomes favored by only a slim majority of voters.

Selected Contents:

The 1980 Presidential Election

Ronald Reagan and the Shaping of the American Conservative Movement

**Jeffrey D. Howison**, Yeditepe University, Istanbul, Turkey

*Series: Critical Moments in American History*

The 1980 presidential election of Ronald Reagan marked an important moment in domestic and international politics, American conservatism, the Republican party, and the economic trajectory of the U.S. In a concise narrative supplemented by primary documents, *The 1980 Presidential Election* shows how Reagan's journey to the White House was connected to the wider transformations of post-1945 American history.

gary lee malecha, university of portland, usA and daniel J. reagan, Ball State University, usA

**The Public Congress**

Congressional Deliberation in a New Media Age

Contemporary members of Congress routinely use the media to advance their professional goals. Today, virtually every aspect of their professional legislative life unfolds in front of cameras and microphones and, increasingly, online. *The Public Congress* explores how the media moved from being a peripheral to a central force in U.S. congressional politics. The authors show that understanding why this happened allows us to see the constellation of forces that combined over the last fifty years to transform the American political order.

**Selected Contents:**
1. Introduction
2. The New Front on the Hill
3. The Foundation for Contemporary Public Strategies
4. Congressional Responses to Changes
5. The Parties' Public Relations Response
6. Running Public Relations Operations on the Hill
7. The Public Relations Battle over the Stimulus Package
8. Thinking Constitutionally

2012: 6x9: 216pp
Hb: 978-0-415-89432-2: £95.00
Pb: 978-0-415-89429-8: £24.99

**A Citizen’s Guide to the Constitution and the Supreme Court**

Constitutional Conflict in American Politics

**Morgan Marietta**, University of Massachusetts, Lowell, US

*Series: Citizen Guides to Politics and Public Affairs*

**Selected Contents:**
This breezy, concise guide explains the central conflicts that frame America's constitutional controversies, written in clear non-academic language to serve as a resource for engaged citizens, both inside and outside of an academic setting. After covering the main points of conflict in constitutional law, Marietta gives readers an overview of the leading schools of constitutional interpretation in the context of several landmark cases and ends with advice to readers on how to interpret constitutional issues themselves.

*For full contents and more information, visit: www.routledge.com/9780415843812*

**New Directions in Judicial Politics**

Edited by **Kevin T. McGuire**, University of North Carolina at Chapel Hill, USA

*Series: New Directions in American Politics*

*New Directions in Judicial Politics* seeks to demystify the courts, offering students the insights of empirical research to address questions that are of genuine interest to students. In addition to presenting a set of conclusions about the way in which courts operate, this book also models the craft of political research, illustrating how one can account for a variety of factors that might affect the courts and how they operate. The renowned scholars and teachers in this volume invite critical thinking, not only about the substance of law and courts in America, but also about the ways in which we study judicial politics.

**Contents:**
1. Election Administration: Setting the Rules of the Game
2. Campaign Finance: Adapting to a Changing Regulatory Environment
3. Polling: Innovations in Survey Research
4. Campaign Management and Organization: The Use and Impact of Information and Communication Technology
5. Campaign Advertising: Reassessing the Impact of Campaign Ads on Political Behavior
6. Voter Mobilization: The Scientific Investigation of Getting the electorate to the Polls
7. The Political Parties: The Tensions Between Unified Party Images and Local Conflict
8. Interest Groups: Back to Basic Questions
9. Media: The Complex Interplay of Old and New Forms
10. Voting Behavior: Traditional Paradoxes and Contemporary Challenges
11. Congressional Elections: Why Some Incumbent Candidates Lose
12. Presidential Elections: Campaigning within a Segmented Electorate
13. State and Local Elections: The Unique Character of Sub-National Contests
14. Election Reform: What is Expected, and What Results?

The Media, the Court, and the Misrepresentation
The New Myth of the Court
Rorie L. Solberg, Oregon State University, USA and Eric N. Waltenburg, Purdue University, USA

This book uncovers and describes media coverage of the Supreme Court and compares it to the Court’s actual work, its members, and the confirmation hearings. Analyzing media coverage of nominations and confirmation hearings, the justices’ extra-curricular activities and their retirements/deaths, and the Court’s opinions and comparing this coverage to its coverage of other political institutions.

Federal Constitutionalism
State Legislatures in Constitutional Politics
Bradley D. Hays, Union College, USA.

Despite the obvious importance of federalism to American constitutionalism, little is known about the political influence of states in defining the American constitutional order. Through analysis of colonial practices, early American political thought, and case studies of state response to the Alien and Sedition Acts, the embargo crisis, federal spending on internal improvements, the national tariff, civil rights in the 1950s and 1960s, the USA PATRIOT Act, the REAL ID Act, and others, Federal Constitutionalism offers analysis at the intersection of federalism and politics.

The Dual System of Privacy Rights in the United States
Mary McThomas, Mississippi State University, USA

The right to privacy in the United States has proven problematic for both political theorists and constitutional scholars, as it does not conform to theoretical conceptions of privacy or to existing theories of constitutional development. Mary McThomas provides a new model that helps us to think about both the right to privacy as well as constitutional development. The book brings the theoretical conceptions and the practice of privacy rights together, explaining what has happened in the area up until this point, and offering ways to predict how the courts will handle some of today’s most contentious issues.

The Supreme Court in a Separation of Powers System
The Nation’s Balance Wheel
Richard Pacelle, Georgia Southern University, USA

Pacelle analyzes the US Supreme Court’s interaction in the separation of powers system, detailing its relationship to the presidency, Congress, the bureaucracy, public opinion, interest groups, and the vast system of lower courts. This book urges scholars and students alike to think more broadly and situate the highest court as the “balance wheel” in the American system.

Gender and Justice
Why Women in the Judiciary Really Matter
Sally J. Kenney, Tulane University, USA

Series: Perspectives on Gender

Intended for use in courses on law and society, as well as courses in women’s and gender studies, women and politics, and women and the law, this text explores different questions in different North American and European geographical jurisdictions and courts, demonstrating the value of a gender analysis of courts, judges, law, institutions, organizations, and, ultimately, politics.

PRESIDENCY

TEXTBOOK

The Development of the American Presidency

Richard Ellis, Willamette University, USA

This text provides a comprehensive overview of the American presidency, analyzing how it has evolved in relation to the public, Congress, the Executive branch, and the law. Ellis's developmental lens shows how history has shaped the contemporary institution. The text promotes active learning and critical thinking through chapter opening vignettes of illustrative puzzles that bring to life a central concept. A wealth of photos, figures, and tables and a companion website provide additional learning resources for students.

TEXTBOOK

A Citizen's Guide to Presidential Nominations

Wayne Steger, Depaul University, USA

Series: Citizen Guides to Politics and Public Affairs

The method the United States uses to nominate presidential candidates can sometimes seem like a media circus, over-hyped and overly speculative. Yet the process is one distinct to American politics, crucial to the way that students and citizens comprehend politics and participation. This concise and coherent Citizen's Guide examines the critical issues in presidential nominations and how they affect who we as citizens choose to nominate.

Presidential Power and Accountability

Toward a Presidential Accountability System

Bruce Buchanan, University of Texas at Austin, USA

This book contests the view that the growth of presidential war power relative to Congress is irreversible, and identifies what would be required to restore presidential war power to constitutional specifications, while leaving the president powerful enough to do what is necessary in the face of emergency. Buchanan focuses on diagnosing the origins of the problem and devising ways to work toward restoration of the constitutional balance of power between Congress and the president.

The Obama Administration’s Nuclear Weapon Strategy

The Promises of Prague

Aiden Warren, RMIT, Australia

Series: Routledge Studies in US Foreign Policy

This book will comprehensively outline and evaluate the key Obama nuclear weapons policies, developments and initiatives from 2008-2012. Additionally, the book also evaluates the Obama Administration’s dealings with other states in the context of its nuclear weapons policy – in particular, North Korea, Iran, Pakistan, India, Israel and China. Offering a comprehensive analysis of the current status of the US nuclear weapons strategy, this volume will be of great interest to scholars and students of American foreign policy, security studies and international relations.

Perspectives on Presidential Leadership
An International View of the White House
Edited by Michael Patrick Cullinane, University of Northumbria, UK, and Clare Frances Elliott, University of Northumbria, UK.
Series: Routledge Research in American Politics and Governance
At a time when understanding presidential legacy is in high demand, this book offers a unique international perspective. In thirteen chapters, thirteen individual presidential administrations are assessed. Some presidents have been considered a success, others a failure; both types are featured in these thirteen case studies written by leading scholars in their fields. In a measured attempt to understand how the perception of presidential leadership evolves, shifts, and contrasts across three centuries of American politics.

READER • 2nd Edition
Presidential Documents
Words that Shaped a Nation from Washington to Obama
Edited by Thomas J. McInerney, Metropolitan State University, USA and Fred L. Israel, City College—CUNY, USA.
In this lively, authoritative collection, Thomas J. McInerney presents famous and lesser-known speeches, letters, and other documents from every U.S. president from Washington to Obama. Now in its second edition, Presidential Documents has been re-designed to increase its usefulness in the classroom. Part openers introduce each era of the American presidency with a political and historical overview, highlighting the challenges each leader faced, and placing the documents in context. Used as a complement to a survey text or as a collection of primary documents, Presidential Documents provides an engaging look at the work of the leaders of the United States, in all their complexity.

John F. Kennedy
The Spirit of Cold War Liberalism
Jason K. Duncan, Aquinas College, USA
Series: Routledge Historical Americans
Half a century after his death, John F. Kennedy continues to evoke widespread fascination, looming large in America’s historical memory. Despite the brevity of his presidency, Kennedy dealt with many of the issues that would come to define the 1960s, including U.S. involvement in Vietnam, the wider Cold War, and the growing Civil Rights movement at home. In this book, Jason K. Duncan explains Kennedy’s significance as a political figure of the 20th century in U.S. and world history. In a concise narrative supplemented by primary documents, including presidential speeches and critical reviews from the left and right, Duncan illuminates the impact of an iconic president.

John F. Kennedy
Political Trauma and American Memory
Alice George, Philadelphia, PA
Series: Critical Moments in American History
In 1963 the assassination of JFK set in motion events that irrevocably changed American politics and culture. The media frenzy spawned by the controversy has given way to a powerful public memory that continues to shape the way we understand the 1960s. In this book, Alice George traces Kennedy’s assassination and Lyndon B. Johnson’s presidency. Covering the political shifts of the time and the cultural fallout of the tragedy, this book introduces students to both the event and to the context in which it was heralded as iconic. Drawing on newspaper articles, political speeches, and letters, George re-examines the event of JFK’s death and its persistent political and cultural legacy.

John F. Kennedy
Harry S. Truman
The Coming of the Cold War
Nicole L. Ansolder, Indiana University Northwest, USA
Series: Routledge Historical Americans
Harry S. Truman presided over one of the most trying, frightful times in American history—the end of World War II and the onset of the Cold War. With his humble beginnings and straightforward manner, Truman exemplifies what is broadly conceived to be the experience of a typical American. Although he left office with record low approval ratings, Truman has recently been the subject of historical reassessment. Now that we are living in the post-Cold War era, Harry S. Truman: The Coming of the Cold War provides us with a broader context for how politics and international relations have evolved.

TEXTBOOK
New Directions in Interest Group Politics
Edited by Matt Grossmann, Michigan State University, USA
Reflecting cutting edge scholarship but written for undergraduates, New Directions in Interest Group Politics will help students think critically about influence in the American political system. There is no shortage of fear about “the special interests” in American political debate, but reliable information about what interest groups do, who they represent, and how they influence government is often lacking. This volume, comprised of original essays by leading scholars, is designed to summarize and explain contemporary research that helps address popular questions and concerns, making studies accessible to undergraduate students and providing facts to buttress informed debate.

TEXTBOOK
New Directions in Media and Politics
Edited by Travis N. Ridout, Washington State University, USA
Series: New Directions in American Politics
The field of media and politics is quickly changing as society transforms and new technologies develop continuously. Academic research in the area is rapidly breaking new ground to keep pace with the prolific media developments. This carefully crafted volume addresses the big questions that academic researchers are asking, exposing students to the rigorous scholarship in the field but making it readily understandable by undergraduate students.

TEXTBOOK • 2nd Edition
Interest Groups in American Politics
Pressure and Power
Anthony J. Nowness, University of Tennessee, Knoxville, USA
This concise but thorough text demonstrates that interest groups are involved in the political system at all levels of government—federal, state, and local—and in all aspects of political activity; from election campaigns to agenda setting to lawmaking to policy implementation. The much anticipated revision of Nowness’s text retains a student friendly tone and thoroughly updates the references to interest group research, as well as adds a new chapter on the connections between interest groups and political parties. Numerous figures and tables throughout the book help students visualize important trends and information.

Understanding American Political Parties
Democratic Ideals, Political Uncertainty, and Strategic Positioning
Jeffrey M. Stonecash, Syracuse University, USA
Noted scholar Jeffrey Stonecash gives us a big picture analysis that helps us understand what is happening in contemporary party politics. He explains that parties behave the way they do because of existing political conditions and how parties adapt to those conditions as they prepare for the next election. Stonecash sheds much needed light on why parties engage in the practices that frustrate so many Americans.

Interfaith Advocacy
The Role of Religious Coalitions in the Political Process
Katherine E. Knutson, Gustavus Adolphus College, USA
Series: Routledge Research in American Politics and Governance
Using the historic Minnesota state government shutdown of 2011 as a backdrop, Interfaith Advocacy describes the work of the Joint Religious Legislative Coalition, an interfaith advocacy group that brings together leaders from Catholic, Protestant, Jewish, and Muslim traditions to advocate on behalf of a range of policies. With research based on two years of in-depth interviews, participant observation, and analysis of archival records, this volume offers proof that it is possible to build successful long term political coalitions among improbable allies.

**Super PAC!**
Money, Elections, and Voters after Citizens United

Conor M. Dowling, University of Mississippi, USA and Michael G. Miller, University of Illinois, Springfield, USA

Series: Routledge Research in American Politics and Governance

Since 2010, the judiciary has decided that corporations and labor unions may freely spend in American elections, and that so-called “Super PACs” can accept unlimited contributions from private citizens for the purpose of buying election advertising. Using campaign finance data, election returns, advertising archives, a public opinion survey, and interviews with congressional candidates in the 2012 election, Super PAC! provides unprecedented insight into the behavior of these organizations, and how they affect public opinion and voting behavior. The first in-depth exploration of the topic, this book will make significant contributions in both political science and applied policy.

**Making Sense of Media and Politics**
Five Principles in Political Communication

Gadi Wolfsfeld, Hebrew University of Jerusalem, Israel

Politics is above all a contest, and the news media is the central arena for viewing that competition. In Making Sense of Media and Politics, Gadi Wolfsfeld explores five concepts that provide a solid conceptual base for examining the interrelationship of media and politics.

2011: 6x9: 160pp

**Framing War**
Public Opinion and Decision-Making in Comparative Perspective

Francesco Olmastroni, University of Siena, Italy

Series: Routledge Studies in Global Information, Politics and Society

Framing War uses the recent war on Iraq as a case study, focusing on the elite and media framing of this event in order to examine the interaction between the political elite and the mass public in three Western democracies—France, Italy, and the US—during the early and on-going stages of the military crisis. The book analyzes whether and, potentially, the extent to which decision-makers tracked and responded to public opinion in presenting their foreign policy choices.

**The Dynamics of Political Communication**
Media and Politics in a Digital Age

Richard M. Perloff. Cleveland State University, USA

Designed to provide an understanding of the principles as well as methods of research and hypothesis-testing, this text explores current political communication theories and beliefs, covering such key concepts as agenda-setting, program-building, framing, and political socialization. Each chapter includes materials that encourage reflection on controversial matters and provide links to online examples of real-life political communication. With a companion website providing student and instructor resources, this text prepares readers to survey the political landscape with a more critical eye, and encourages a deeper understanding of the challenges in this constantly evolving field.

**Cyberactivism on the Participatory Web**

Edited by Martha Mccaughhey. Appalachian State University, USA

Series: Routledge Studies in New Media and Cyberculture

Cyberactivism already has a rich history, but over the past decade the participatory web has reshaped political and social change. This volume examines the impact new digital technologies have on political organizing and protest across the political spectrum, from the Arab Spring to artists to far-right groups. Contributors offer sophisticated case studies that examine recent developments such as the use geo-spatial software on mobile devices, the role of social media in recent democratic movements in the Middle East, the role of new media in the global environmental justice movement; and the significance of the ‘convergence culture’ in which we now find ourselves.

*Science for Citizenship*

**Susan P. Liebell**, Saint Joseph’s University, USA

Is American liberalism an Enlightenment liberalism that emphasizes universal principles and autonomy or a deeply Protestant liberalism with respect for diversity of religious belief and opinion? To what extent does respect for the scientific method undergird or undercut these competing and complementary understandings of liberalism? Through an examination of Tammy Kitzmiller, et al. v. Dover Area School District, this volume shows how American civic identity has stretched to accommodate both versions of liberalism, yet any decision regarding the teaching of evolution has serious implications for diversity, autonomy, and tolerance.

**Social Contract Theory in American Jurisprudence**

*Too Much Liberty and Too Much Authority*

**Thomas R. Pope**, Lee University, USA

Social Contract Theory in American Jurisprudence seeks to reintroduce the lessons of modern political philosophy to offer a solution for this variable application of legal principle and to lay the groundwork for a jurisprudence consistent in both theory and practice. Using two specific court cases to exemplify his argument, Pope explores our constitution’s roots in social contract theory, looking particularly to the ideas of Thomas Hobbes for a jurisprudence that is consistent with the language and tradition of the Constitution, and that is also more effectually viable than existing alternatives.

**Untangling Heroism**

*Classical Philosophy and the Concept of the Hero*

**Ari Kohen**, University of Nebraska-Lincoln, USA

Untangling Heroism argues for the existence of three categories of heroism that can be traced back to the earliest Western literature – the epic poetry of Homer and the dialogues of Plato – and that are complex enough to resonate with us and assist us in thinking about heroism today. Kohen carefully examines the Homeric heroes Achilles and Odysseus and Plato’s Socrates, and then compares the three to each other. Kohen states that in a post-Socratic world, we have chosen to place a premium on heroes who make other-regarding choices over self-interested ones.

Local Disaster Resilience
Administrative and Political Perspectives

Ashley D. Ross, Sam Houston State University, USA

Ashley D. Ross systematically explores and measures disaster resilience across the Gulf Coast to gain a better understanding of how risk is conceptually translated into disaster management practices, particularly on the local government level. In doing so, she presents disaster resilience theory to the Gulf Coast using existing data to create county-level baseline indicators of Gulf Coast disaster resilience and an original survey of county emergency managers and elected municipal officials in 60 counties and 120 county-level baseline indicators of Gulf coast disaster resilience and an original survey of county emergency managers and elected municipal officials in 60 counties and 120 municipalities across the Gulf States. Disaster Resilience
Interdisciplinary Perspectives

Edited by Naim Kapucu, Christopher V. Hawkins and Fernando I. Rivera, all at University of Central Florida, USA

Natural disasters in recent years have brought the study of disaster resiliency to the forefront. The importance of community preparedness and sustainability has been underscored by such calamities as Hurricane Katrina in 2005 and the Japanese tsunami in 2011. Natural disasters will inevitably continue to occur, but by understanding the concept of resiliency as well as the factors that lead to it, communities can minimize their vulnerabilities and increase their resiliency.

TEXTBOOK • 2nd Edition
The American Political Economy
Institutional Evolution of Market and State

In this innovative text, Marc Allen Eiseir portrays the state and the market as inextricably linked, exploring the variety of institutions subsumed by the market and the role that the state plays in creating the institutional foundations of economic activity. Through a historical approach, Eiseir situates the study of American political economy within a larger evolutionary-institutional framework that integrates perspectives in American political development and economic sociology.

Can Education Change Society?

Michael W. Apple. University of Wisconsin, Madison, USA

Despite the vast differences between the Right and the Left over the role of education in the production of inequality, one common element both sides share is a sense that education can and should do something about society. In this groundbreaking work, Apple pushes educators toward a more substantial understanding of what schools do and what we can do to challenge the relations of dominance and subordination in the larger society. This touchstone volume is both provocative and honest about the ideological and economic conditions that groups in society are facing and is certain to become another classic in the canon of Apple’s work and the literature on education more generally.

Debating Public Administration

Management Challenges, Choices, and Opportunities

Edited by Robert F. Durant. American University, Washington, DC, USA and Jennifer R.S. Durant

Series: ASPA Series in Public Administration and Public Policy

Informed by a “5 R” framework (reconceptualizing purpose, redefining rationality, recapitalizing human assets, reengaging resources, and revitalizing democratic constitutionalism), this book bridges the gap between theory and practice. In this collection of articles revised for book format, the Durants expertly draw out themes, issues, problems, and prospects in their preface and section introductions. Bulleted lessons and practical take-aways are also added for the busy practitioner and researcher. This book is a “one stop shop” for cross-disciplinary, cross-sectoral, and cross-professional exchanges on contemporary challenges, choices, and opportunities facing public administrators today.

Challenges in City Management

A Case Study Approach

Becky J. Starnes

Series: ASPA Series in Public Administration and Public Policy

Incorporating urban management and organizational management theories with actual practice, the author presents a series of case studies based on observations made during her extensive experience. Multiple cases are offered in common contemporary city topics ranging from personnel, policy-making, housing, homelessness, transportation, and budgeting. Each study describes and analyzes a scenario, identifying the economic and political factors as well as the often conflicting players and interest groups. For classroom use, the case approach lends to discussions, debates, and role-playing activities.

Collaborative Strategies for Sustainable Cities

Economy, Environment and Community in Baltimore

Eric S. Zeemering. University of Maryland, Baltimore County, USA

Series: Routledge Studies in Public Administration and Environmental Sustainability

A city may have a sustainability plan and personnel responsible for sustainability; but, in order to understand how cities make progress on their sustainability policy goals, we need a view of the networks working to advance sustainability in the community. Using the city of Baltimore to describe and analyze the involvement of the participants in local sustainability efforts in rich detail, Eric Zeemering argues that when we think about the sustainable city, the city government is not the best unit of analysis for our investigations or policy planning.

Comparative Perspectives on Environmental Politics and Issues

Edited by Robert A. Dibie, Indiana University Kokomo, USA
This book presents tools and concepts about environmental policies in several developed and developing countries. It explores a broad survey of ecological modernization theory, ecological feminism theory, environmental justice theory, the concept of sustainability, and research on environmental policies. Data were collected through surveys, interviews, and focus groups, and are used to analyze social, economic, and environmental impact on people.

Framing Environmental Disaster

Environmental Advocacy and the Deepwater Horizon Oil Spill

Melissa K. Merry, University of Louisville, USA
Examines how environmental groups assign blame for the Deepwater Horizon Oil Spill and how they seek to use this disaster to advance their policy goals. Sheds new light on the implications of the disaster for energy politics and policies in the United States more generally while advancing scholarly understandings of the role of framing and causal attribution in the policy process.

Green vs. Green

The Political, Legal, and Administrative Pitfalls Facing Green Energy Production

Ryan M. Yonk, Southern Utah University, USA, Randy T. Simmons and Brian C. Steed, both at Utah State University, USA
Wind, solar, geothermal, biofuel, hydro, and other non-traditional energy sources promise as alternatives to fossil fuels and may provide a sustainable source of energy in increasingly uncertain energy markets. However, these new sources of energy face their own set of political, administrative, and legal challenges. Underexplored in both academic and policy settings, this book provides valuable insights on how existing regulatory regimes in the United States interact with the broad goal of developing green energy and curbing global climate change.

The Lilliputians of Environmental Regulation

The Perspective of State Regulators

Michelle C. Pautz, University of Dayton, USA and Sara R. Rinfret, Hartwick College, USA
With data collected from more than 1,200 inspectors across 17 states, Pautz and Rinfret take a closer look at neglected front-line actors in state environmental agencies to better understand how environmental regulators perceive the regulated community. In doing so, they explore the role these front-line actors play, what it is like to be them, what they think of their place in the environmental regulatory system, and how they interact with the regulated community. An original, timely and unmatched volume advancing the debate on the future of environmental regulation in the U.S.

Local Economic Development and the Environment

Finding Common Ground

Susan M. Opp, Colorado State University, Fort Collins, USA and Jeffery L. Osgood, Jr., West Chester University, Pennsylvania, USA
In a uniquely clear and practical discussion of local economic development in this strained economic climate, this book provides an array of best practice recommendations and strategies for optimizing the difficult balance between economic development and environmental protection. Encompassing myriad locales and presenting daily applications, it connects administrative readers with a larger body of research that will help them avoid legal, technical, and political obstacles. Bridging the gap between policy-making intention and outcome, it includes many action-oriented and empowering case studies relevant to today’s most immediate strategies.

Adapting to Sea Level Rise in the Coastal Zone  
Law and Policy Considerations

**Chad J. McGuire**, University of Massachusetts, Dartmouth, USA

Comprehensive, but not overly technical, this book provides a legal policy framework to the discussion of how coastal managers can best approach the problem of sea level rise. It identifies legal barriers and offers proposed solutions to mitigate the impact of those barriers. The book introduces the issue, delves into the science behind sea level rise, discusses policy complexities and options, followed by an overview of related legalities, then, bringing it all together, the author applies the principles offered in the book, concluding with strategies and solutions and a perspective on the future.

TEXTBOOK

**Food Policy in the United States**  
An Introduction

**Parke Wilde**, Tufts University, Boston, USA

Series: *Earthscan Food and Agriculture*

In this introductory textbook the author argues that if current policies were more widely understood beyond the small community of food policy experts, political support for reforms could increase. The goal of the book is therefore not only to provide a broad and balanced textbook, but also to make US food policy more comprehensible to those outside the agri-food sector whose interests and aspirations have been ignored. It assumes that the reader’s concern is not just the economic interests of farmers, but also includes nutrition, sustainable agriculture, the environment and food security.

TEXTBOOK

**Environmental Commodities Markets and Emissions Trading**  
Towards a Low-Carbon Future

**Blas Luis Pérez Henríquez**, University of California at Berkeley, USA

Market-based environmental policy analysis requires taking into account all the institutional factors necessary for the market to function optimally, and the social forces that shape policy design. This book sheds light on the institutional history of the emissions trading concept as it has evolved across different contexts.

TEXTBOOK

**Communicating Environmental Patriotism**  
A Rhetorical History of the American Environmental Movement

**Anne Marie Todd**, San José State University, USA

Series: *Routledge Explorations in Environmental Studies*  
Environmental patriotism, the belief that the national environment defines a country’s greatness, is a significant strand in twentieth century American environmentalism. This book questions what it means to be an environmentalist in America, arguing that environmental patriotism can mobilize America’s green consciousness, thereby providing a new history of the American environmental movement. A rhetorical history, this book is the first to explore the history of environmental patriotism in America through the intriguing stories of environmental patriots and the rhetoric of their speeches and propaganda.

Energy and Electricity in Industrial Nations
The Sociology and Technology of Energy

Allan Mazur, Syracuse University, USA

Energy is top of the list of environmental problems facing industrial society, and this book attempts to bridge the gap in understanding between the technological side and the sociological side of the problem. Allan Mazur explains energy technologies for nontechnical readers and analyzes the sociology of energy. This novel sociological approach to energy technology and policy makes the book an invaluable interdisciplinary resource for students across a range of subjects, from environmental and engineering policy, to energy technology, public administration, and environmental sociology and economics.

The Citizenship of Americans Living Abroad
Democracy and Those Who Leave

Katya C. Long, Université Libre de Bruxelles, Belgium

Series: Routledge Research in American Politics and Governance

In The Citizenship of Americans Living Abroad, Katya Long provides a detailed and comprehensive analysis of American citizenship overseas, examining the impact overseas citizens have on citizenship both as a status and as a practice. She argues that for overseas citizens, political involvement is a method of staying connected to a state and a geographical base. Long’s analysis of the complex legal and political system for overseas citizens sets a new standard for the field.

Reporting at the Southern Borders
Journalism and Public Debates on Immigration in the U.S. and the E.U.

Edited by Giovanna Dell’Orto, University of Minnesota, Twin Cities, USA and Vicki L. Birchfield, Georgia Institute of Technology, USA

Series: Routledge Studies in Global Information, Politics and Society

This interdisciplinary and international volume fills a major gap in political science and communication literature on the role of news media in public debates over immigration by providing unique insider’s perspectives on journalistic practices and bringing them into dialogue with scholars and immigrant rights practitioners. The contributors’ comparative reflections on the professional, institutional, and technological constraints shaping news stories offer unprecedented insight into the challenges and opportunities for 21st century journalism to affect public discourse and policymaking.

PREDISPENDED
Liberals, Conservatives, and the Biology of Political Differences

John R. Hibbing, University of Nebraska-Lincoln, USA, Kevin B. Smith, University of Nebraska-Lincoln, USA and John R. Alford, Rice University, USA

Predisposed will change the way you think about politics. The book presents evidence that people differ politically not just because they grew up in different cultures or were presented with different information. These factors certainly play their role, but people also differ politically because they have diverse psychological, physiological, and genetic traits that predispose them to see and understand the world in different ways. These predispositions are in turn responsible for a significant portion of the political conflict that marks human history.

With verve and wit, renowned social scientists John Hibbing, Kevin Smith, and John Alford—pioneers in the field of biopolitics—present overwhelming evidence that people differ politically not just because they grew up in different cultures or were presented with different information. Despite the oft-heard longing for consensus, unity, and peace, the universal rift between conservatives and liberals endures because people have diverse psychological, physiological, and genetic traits.

Political disputes typically spring from the assumption that those who do not agree with us are shallow, misguided, uninformled, and ignorant. Predisposed suggests instead that political opponents simply experience, process, and respond to the world differently. It follows, then, that the key to getting along politically is not the ability of one side to persuade the other side to see the error of its ways but rather the ability of each side to see that the other is different, not just politically, but physically. Predisposed will change the way you think about politics and partisan conflict.

As a bonus, the book includes a “Left/Right 20 Questions” game to test whether your predispositions lean liberal or conservative.

PUBLIC OPINION AND POLITICAL PSYCHOLOGY

TEXTBOOK • 2nd Edition
Political Psychology
Situations, Individuals, and Cases

David P. Houghton, University of Central Florida, USA.

This text provides a concise, readable, and conceptually organized introduction to the topic. Houghton’s examples challenge students to place themselves in both real and hypothetical situations which involve intense moral and political dilemmas. The new edition includes a new chapter on the psychology of the media & communication. Houghton has also updated the text to analyze recent political events such as the 2012 election, and to include up-and-coming research in the areas of neuroscience, behavioral economics, & more.

Barack Obama and the Myth of a Post-Racial America
Edited by Mark Ledwidge. University of Manchester, UK, Kevern Verney. Edge Hill University, UK and Inderjeet Parmar. City University London, UK
By placing Obama in the historical context of U.S. race relations, this edited book interrogates the idealized and progressive view of American society advanced by much of the mainstream literature on Obama. Barack Obama and the Myth of a Post-Racial America takes a careful look at the historical, cultural and political dimensions of race in the United States, using an interdisciplinary analysis that incorporates approaches from history, political science, and sociology.

Race and the Politics of the Exception
Equality, Sovereignty, and American Democracy
Utz McKnight. University of Alabama, USA
In Obama and the Politics of the Exception, Utz McKnight argues that race is political and defines how it functions as a politics today. McKnight applies the critical race theory presented in his book to discussion of the current racial politics surrounding the election, first administration, and 2012 political campaign of President Obama. Scholars of political theory, identity politics, African American studies, and American Studies will find this work ground-breaking and relevant.

Conservatism in the Black Community
To the Right and Misunderstood
Angela K. Lewis. University of Alabama at Birmingham, USA
Conservatism in the Black Community examines the contemporary meanings of Black Conservatism and its influence on black political behavior, providing a basis for understanding the impact this phenomenon has on black political behavior. Lewis analyzes conservatism within the black ideological framework, while also explaining the meaning of conservatism in the black community. The results of Lewis’s mix of quantitative and qualitative methodologies will be of strong interest to students and scholars of Black politics, Black studies, and political behavior more generally.

American Identity in the Age of Obama
Edited by Amilcar Antonio Barreto. Northeastern University, USA, and Richard L. O’Bryant. Northeastern University, USA
Contributors expertly examine Obama’s election and re-election as watershed phenomena that will be exploited by the president’s supporters and detractors to engage in different forms of narrating the American national saga. Despite the potential for major changes in rhetorical mythmaking we question whether American society has changed substantively.

The Politics of Race in Latino Communities
Walking the Color Line
Atiya Kai Stokes-Brown. Bucknell University, USA
Drawing on a national political survey of Latinos and focus group interviews, the book shows that development of Latino racial identity is a complex interaction between primordial ties, institutional practices, individual characteristics, and social interactions. The book highlights the political relevance of identity, showing that racial identity has meaningful consequences for the political attitudes, opinions, and behaviors of Latinos. An important piece of research propelling new discussions and insights into Latino politics.

The Post-Racial Society is Here
Recognition, Critics and the Nation-State
Wilbur C. Rich. Wellesley College, USA
In a provocative and controversial analysis, Wilbur C. Rich’s The Post-Racial Society is Here conclusively demonstrates that nation is in midst of a post-racial society, although many Americans are skeptical of this fundamental social transformation. Using the findings of historians and social scientists, this book outlines why the construction and deconstruction of the race-based society was such a difficult and daunting enterprise. Rich also alerts the reader to the unprecedented progress made and why the forces of the new global economy demand that we move faster to make society more inclusive.

**The Latino Gender Gap in U.S. Politics**
Christina E. Bejarano, University of Kansas, USA

Many questions remain unanswered about the observable differences in voting behavior, partisanship, and cultural attitudes among men and women. Bejarano offers an authoritative, critical reflection on how this political gender gap is displayed in the racial/ethnic-minority groups in the U.S.

**Inventive Politicians and Ethnic Ascend in American Politics**

The Uphill Elections of Italians and Mexicans to the U.S. Congress
Miriam Jiménez, SUNY Oswego, USA

This innovative book investigates the process through which ethnic minorities penetrate into higher echelons of political power, specifically, how they succeed in getting elected to the U.S. Congress. Jiménez utilizes a ground-breaking comparative dataset of elected members of Congress organized upon the basis of national origin, and then focuses her analysis on Italian-American and Mexican-American politicians. Her book demonstrates the need to reconsider several standard ideas of how minority representation occurs and deepens our understanding of the role that political institutions play in that process.

**African Americans and the Politics of Congressional Redistricting**
Dewey M. Clayton, Dewey M. Clayton, University of Louisville

The book provides a detailed analysis of the politics of racial redistricting, a topic of particular concern in light of recent federal court cases. Clayton’s study examines the historical exclusion of blacks from the American political process and the politics behind congressional redistricting. Investigation of the politics behind redistricting, focusing on partisan maneuvering, assesses whose interests were being served. Then the book shifts focus to the myriad of legal battles that ensued as a result of the newly created districts in North Carolina and around the South.

**Black Politics after the Civil Rights Revolution**
Dianne Pinderhughes, University of Notre Dame, USA

Black Politics after the Civil Rights Revolution brings together three decades of hard-to-find essays by influential scholar Dianne Pinderhughes. The essays provide a window into the institutional, political, and policy developments in African American politics in the post civil rights era. The chapters form a corpus for understanding a number of dimensions of African American politics, as well as for addressing the intellectual and theoretical issues explored in political science by scholars of racial and ethnic politics.

**READER**

**The Modern African American Political Thought Reader**
From David Walker to Barack Obama

Edited by Angela Jones, Farmingdale State College, SUNY, USA

The Modern African American Political Thought Reader compiles work of thinkers from the twentieth century. From abolition, through civil rights, Black nationalism, radical feminism, neo-conservatism, and the new Black Moderate, Jones has collected the key work of the most important figures in black political history. Each chapter includes an introduction, a biographical sketch, and some of their greatest works, chosen to show the range of political subjects of interest to African Americans. From Radicals like Angela Y. Davis to Conservatives like Michael Steele, this anthology showcases the diversity of political thought within the African American community.

**TEXTBOOK • 2nd Edition**

**Governing Metropolitan Areas**
Response to Growth and Change

*David Hamilton, Texas Tech University, USA*

This text provides an in-depth description and analysis of how metropolitan areas and governments within metropolitan areas developed, efforts to restructure and combine local governments, and governance within the polycentric urban region. The second edition is a major revision to update the scholarship and current thinking on regional governance. Maintaining the background on the historical development and growth of urban areas and governments’ efforts to accommodate the growth of metropolitan areas, this edition highlights current efforts to provide governance through cooperative and collaborative solutions. Hamilton also adds extended treatment of how regional governance outside the United States has evolved and how other countries are approaching regional governance.

**The Cultural Contradictions of Progressive Politics**

*Donald L. Rosdil, Northern Virginia Community College, USA*

Series: Routledge Research in Urban Politics and Policy

This work utilizes cultural change and the growth of non-traditional subcultures in explaining how cities seek to shape their futures. It serves as a useful corrective to much of the urban policy literature which relies on economic factors to account for policy outcomes. However, rather than pose a false dichotomy between these two kinds of causal factors, it shows how they work together to produce progressive outcomes.

Not So Golden After All
The Rise and Fall of California

Larry N. Gerston, San Jose State University, California, USA

With descriptive elegance and humor, this book presents the compelling story of California’s ascendance and decline, the kind of place on which anyone in the business of governance should keep an instructive eye. Using California as a rich historical and contemporary example, the book suggests answers to the question of how to create policy that marries expectation to outcome in any state of such fluctuating diversity and complexity. Step by step, the book describes how California has come to its present dysfunctional condition and what, if anything, can be done to change course.

Women and Politics

TEXTBOOK
The Politics of Sex
Public Opinion, Parties, and Presidential Elections
Susan B. Hansen, University of Pittsburgh, USA

In The Politics of Sex, Susan B. Hansen explores trends in public opinion on abortion, gay rights, and the status of women and finds that “values voters” are still crucial in presidential elections, even those supposedly fought over economic or foreign-policy issues. She then analyzes campaign strategies and vote choice to show how Barack Obama made effective use of the liberal trends in public opinion on social issues in 2008 and 2012. Hansen also examines trends in demographics, religious involvement, and public opinion to show how and why the politics of sex now favors the Democratic Party.

African American Women in the News
Gender, Race, and Class in Journalism
Marian Meyers, Georgia State University, USA

Marian Meyers interrogates the varied, complex, and often contradictory images of African American women in various news media through detailed case studies of both national and local news, the mainstream and black press, and traditional news outlets as well as new digital news platforms. Drawing on critical cultural studies and black feminist theory, Meyers suggests that the cultural myths and stereotypes of African American women we see in the news belie far more complex and contradictory issues, located at the intersection of race, class and gender.

Framing Sarah Palin
Pit Bulls, Puritans, and Politics
Linda Beall, Point Loma Nazarene University, USA and Rhonda Kinney Longworth, Eastern Michigan University, USA

Using the notion of “framing” as a way of understanding political perception, the authors analyze the narratives told by and about Sarah Palin in the 2008 election – from beauty queen, maverick, faithful fundamentalist and post-feminist role model to pit bull hockey mom, frontier woman, and political outsider. They discuss where those frames are rooted historically in popular and political culture, why they were selected, and the ways that the frames resonated with the electorate.

Selected Contents:
1. Introduction
2. Frontier Woman
3. Political Outsider
Part 2: Gender Frames
4. Hockey Mom
5. Beauty Queen
6. Post-Feminist Role Model
7. Conclusion

Gender, Race, and Office Holding in the United States
Representation at the Intersections
Becki Scola, St. Josephs University, USA
Series: Routledge Research in American Politics and Governance
Becki Scola examines the factors surrounding the uneven proportional distribution of female legislators, and then explores why gender appears to be an advantage for women of color office holders. The first book-length study to analyze how race informs gender in terms of patterns of office holding, Gender, Race, and Office Holding in the United States provides insight into both underrepresentation in general as well as the underlying dynamics of representation within specific groups of women.

Selected Contents:

Resisting Injustice and the Feminist Ethics of Care in the Age of Obama
“Suddenly,… All The Truth Was Coming Out”
David A.J. Richards, New York University, USA
Series: Routledge Research in American Politics and Governance
David A. J. Richards’s Resisting Injustice and The Feminist Ethics of Care in The Age of Obama: “Suddenly,… All The Truth Was Coming Out” examines the roots of the resistance movements of the 1960s, the political psychology behind contemporary conservatism, and President Obama’s present-day appeal as well as the reasons for the reactionary politics against him. This book positions recent American political development in a broad analysis of the role of patriarchy in human oppression throughout history, and argues that a feminist-based ethics of care is necessary to form a more humane and inclusive democratic politics.

The Routledge Handbook of American Military and Diplomatic History
1865 to the Present
Edited by Christos Frentzos and Antonio S. Thompson, Austin Peay State University, USA
The Routledge Handbook of American Military History provides a comprehensive analysis of the major events, conflicts, and personalities that have defined and shaped the military history of the United States in the modern period. Each chapter begins with a brief introductory essay that provides context for the topical essays that follow. Starting after the Civil War, the chapters chronicle America’s rise toward empire; first at home and then overseas, culminating in September 11, 2001 and the War on Terror. With authoritative and vividly written chapters, maps and illustrations, and lists of further readings, this Handbook will be a go-to reference for every history scholar’s bookshelf.

Citizens Guides to Politics and Public Affairs
TEXTBOOK
A Citizen’s Guide to Terrorism and Counterterrorism
Christopher C. Harmon, Marine Corps University, Quantico, USA
This Citizen’s Guide addresses the public policy issues of terrorism and counterterrorism in the United States after Bin Laden’s death: Written for the thinking citizen and the popular reader, this succinct and up-to-date book takes a “grand strategy” approach toward terrorism and uses illustrations and issues drawn from present-day perpetrators and actors. This short volume will contribute to our understanding of the problems surrounding terrorism and counterterrorism—and the approaches the United States may take to meet them—in the early 21st century.

TEXTBOOK
A Citizen’s Guide to American Foreign Policy
Tragic Choices and the Limits of Rationality
David Patrick Houghton, University of Central Florida, USA
In this brief analysis, Houghton shows that understanding American foreign policy often comes down to the psychology of decision-making, the limited options available, and the structure of government. Written with the interested layperson in mind, as well as students of international affairs, this is vital reading for all who wish to better understand America’s involvement in the world.

Selected Contents:
1. The Fiasco Factory
2. What’s the difference as students of international affairs, this is vital reading for all who wish to better understand America’s involvement in the world.
3. republicans or democrats, &
4. the trouble with congress
5. special Interests
6. Making Foreign Policy By Soundbite & Opinion Poll 7. See No Evil, Hear No Evil

U.S.-Venezuela Relations since the 1990s
Coping with Midlevel Security Threats
 Javier Corrales, Amherst College, USA and Carlos A. Romero, Universidad Central de Venezuela, Venezuela

This text explores relations between the U.S. and Venezuela since 1999. The authors analyze the rising bilateral conflict, the decision-making process in Venezuela, the role played by public and private actors in foreign policy, the role of powers such as China, Russia, and Iran in shaping U.S.-Venezuelan relations, the role of Venezuela in Cuba and Colombia, and the impact of international dynamics.

American Exceptionalism in the Age of Obama

Stephen Brooks, University of Windsor, Canada

In this book, Stephen Brooks argues that American exceptionalism has been and continues to be real. In making this argument he focuses on five aspects of American politics and society that are most crucial to an understanding of American exceptionalism today. They include the appropriate relationship between the state and citizens, religion, socio-economic mobility, America’s role in the world, and ideas about the Constitution.

Educating America’s Military
Joan Johnson-Freese, US Naval War College, RI, USA
Series: Cass Military Studies
‘You may disagree with some of what Johnson-Freese states here, but from now on you can’t be part of the debate about military education unless you have read her book’ - Thomas E. Rick, author of ‘Nuclear’
This book offers a detailed examination of the professional military education system in the United States, from a critical, insider’s perspective.
2012: 216x138: 160pp
Hb: 978-0-415-63499-1: £95.00

Weary Policeman
American Power in an Age of Austerity
Edited by Dana Allin. The International Institute of Strategic Studies (IISS), UK and Erik Jones, The International Institute for Strategic Studies (IISS), UK
Series: Adelphi series
As another presidential election looms, America’s role in global affairs and security has emerged as one of the campaign’s great battle lines. These problems are compounded by the on-going financial crisis in Europe, which, together with the overstretch and fatigue from two wars, has sapped the strength of America’s chief allies. While it may urge its NATO partners to shoulder more of the security burden, the US finds them less willing and occasionally unable to share the strain. This Adelphi examines the myriad challenges America must confront if it is to uphold and spread its values.

Mechanistic Realism and US Foreign Policy
A New Framework for Analysis

Johannes Gullestad Ro, Norwegian Institute for Defence Studies, Oslo,
Series: Contemporary Security Studies
With a view to reinvigorating Realist IR theory, this book utilises the idea of explaining foreign policy by an analysis of mechanisms. It then goes on to apply this to the empirical case of the US response to the 9/11 terror attacks.

Prevention, Pre-emption and the Nuclear Option
From Bush to Obama

Aiden Warren, RMIT, Australia
This book seeks to analyse the Bush Doctrine’s controversial preemption/prevention policy and its willingness to place the nuclear option to the fore of US security strategy. Additionally, it will evaluate the first two years of the Obama administration and its attempts “adjust” and refine US nuclear strategy – if at all.
August 2013: 234x156: 264pp

US Foreign Policy and Democracy Promotion
From Theodore Roosevelt to Barack Obama

Edited by Michael Cox, London School of Economics, UK, Timothy J. Lynch, Institute for the Study of the Americas, University of London, UK, and Nicolas Bouchet, University of London, UK
Series: Routledge Studies in US Foreign Policy
This book offers a collection of concise case studies, written by leading academic experts, that debate how far democratic aspirations have been realized in actual foreign policies. Additionally, it will evaluate the first two years of the Obama administration and its willingness to place the nuclear option to the fore of US security strategy. Additionally, it will evaluate the first two years of the Obama administration and its attempts “adjust” and refine US nuclear strategy – if at all.

American Democracy Promotion in the Changing Middle East

From Bush to Obama

Edited by Shahram Akbarzadeh, University of Melbourne, Australia; James Piscator, University of Durham, UK; Benjamin MacQueen, Monash University, Victoria, Australia and Amin Saikal, Australian National University.

Series: Durham Modern Middle East and Islamic World Series

This book explores the contradictions in American democracy promotion in the Middle East. It discusses the principles underlying US democracy promotion, and the debates surrounding US policy formation, and examines the application of US democracy promotion in specific cases. It concludes by assessing the likely future patterns of US engagement with democratic reform in the Middle East.

Ten Years After 9/11 - Rethinking the Jihadist Threat

Arabinda Acharya, Nanyang Technological University, Singapore

Series: Routledge Security in Asia Pacific Series

Ten years after the 9/11 attacks this book reassesses the effectiveness of the “War on Terror”, considers how al-Qaeda and other jihadist movements are faring, explores the impact of wider developments in the Islamic world such as the Arab Spring, and discusses whether all this suggests that a new approach to containing international, especially jihadist, terrorism is needed.

Negotiating with North Korea

The Six Party Talks and the Nuclear Issue

Leszek Buszynski, Australian National University

Series: Routledge Security in Asia Pacific Series

The North Korean nuclear threat has created an enormous amount of apprehension in the international community in recent years. In 2003, the Six Party Talks brought together the US, China, Russia, Japan as well as South and North Korea to negotiate a multilateral resolution of this nuclear issue. This book examines this multilateral attempt, and will look at the Six Party Talks as a study of multilateralism, differentiating it from empirical studies on the Korean peninsula.

The Cuban Missile Crisis

The Threshold of Nuclear War

Alice George, Philadelphia, PA

Series: Critical Moments in American History

Launched by rash judgment and concluded through circumspect leadership, the Cuban Missile Crisis acted as a catalyst for change during the Cold War. Resolved through back-channel negotiations, the moment is popularly remembered as the closest the world has ever come to full-scale nuclear war. Using government memoranda, personal letters, and newspaper articles, The Cuban Missile Crisis details the actual events of the political history, while explaining widespread public response. This will be a must-read for anyone looking for an in-depth summary of these important events.

The Origins of U.S. Policy in the East China Sea Dispute

Okinawa’s Reversion and the Senkaku Islands

Robert D. Eldridge, Okinawa University, Japan

Series: Routledge Security in Asia Series

This book charts the development of the Senkaku Islands dispute, and focuses in particular on the negotiations between the United States and Japan prior to the handing back to Japan in 1970 of Okinawa. The book shows how the detailed progress of these negotiations was critical in defining the United States’ neutral attitude to the dispute.

Asia, the US and Extended Nuclear Deterrence

Atomic Umbrellas in the Twenty-First Century

Andrew O’Neil, Griffith University, Australia

Provides the first detailed analysis of the way in which extended nuclear deterrence operates in contemporary Asia. O’Neil uses a theoretical and historical framework to analyse the contemporary and future dynamics of extended nuclear deterrence in Asia and challenges many of the existing orthodox perspectives on the topic.

Understanding Transatlantic Relations

Whither the West?

Serena Simoni, Samford University, USA

Series: Routledge Advances in International Relations and Global Politics

Breaking away from the conventional way to study transatlantic relations, Serena Simoni uses a Constructivist theoretical lens to argue that the transatlantic partners’ changing identities since the early 1990s have influenced their political interests and, as a consequence, their national security policies.

**TEXTBOOK - 2nd Edition**

Politics and Religion in the United States

Michael Corbett, Julia Corbett-Hemeyer, Ball State University, USA and J. Matthew Wilson, Southern Methodist University, USA

This much-anticipated revision brings Corbett and Corbett’s classic text fully up-to-date. The 2nd edition continues with a thorough discussion of historical origins of religion in political life, constitutional matters, public opinion, and the most relevant groups. Revisions include fully updating all the public opinion data, fuller incorporation of voting behavior among different religious and demographic groups, and enhanced discussion of minority religions.

**Selected Contents:** Part I: Religion & History; Part II: Religion & the First Amendment; Part III: Religion & Public Opinion; Part IV: Effects of Religious Influences in Politics

November 2013: 6x9: 392pp
Hb: 978-0-415-88772-4: £85.00
Ebook: 978-0-203-09483-9

**RESEARCH METHODS**

**TEXTBOOK**

Political Science Research in Practice

Edited by Akan Malici and Elizabeth S. Smith, both at Furman University, USA

This text engages students with political questions and then demonstrates how a researcher has gone about answering them, walking through research contributors have conducted. Each chapter introduces students to a method of empirical inquiry; showing the process of developing a research question, how and why a particular method was used, and the rewards and challenges discovered.

2012: 7-3/8x9-1/4: 252pp
Hb: 978-0-415-88773-1: £100.00
Pb: 978-0-415-88772-4: £36.99
Ebook: 978-0-203-83096-3

**TEXTBOOK**

Games and Politics

A Primer

Emerson Niou and Peter C. Ordeshook, California Institute of Technology, USA

From one of the pioneers in positive political theory, this book is designed to introduce students to the application of game theory to modeling political processes. It presents a clear, accessible method of analyzing the fundamental nature and function of political phenomena such as elections, legislative and committee processes, and international conflict. Included at the end of each chapter is a set of exercises and suggestions for further reading. Although the text assumes only an elementary-level training in algebra, it equips students to read nearly all of the professional literature that makes use of game theoretic analysis.

**Selected Contents:** 1. Representation of Political Processes 2. Analysis of Extensive Form Games 3. Analysis of Strategic Form Games 4. Some Special Political Games 5. Games with Incomplete Information 6. Cooperation and Coalitions

July 2014: 6x9: 324pp

**TEXTBOOK**

Understanding Political Science Research Methods

The Challenge of Inference

Maryann Barakso, University of Massachusetts, Amherst, USA; Daniel M. Sabet, Georgetown University, USA and Brian Schaffner, University of Massachusetts, Amherst, USA

Three themes run through Barakso, Sabet, and Schaffner’s text: minimizing classic research problems to making valid inferences, effective presentation of research results, and the nonlinear nature of the research process. Throughout their academic years and later in their professional careers, students will need to effectively convey various bits of information. Presentation skills gleaned from this text will benefit students for a lifetime, whether they continue in academia or in a professional career.

**Selected Contents:** Part I: Asking a Question and Proposing an Answer; Part II: A Menu of Approaches

December 2013: 7-3/8x9-1/4
Hb: 978-0-415-89520-0: £31.99
Ebook: 978-0-203-80125-3

**NEW IN PAPERBACK**

Religion, Race, and Barack Obama’s New Democratic Pluralism

Edited by Gastón Espinosa, Claremont McKenna College, USA

Series: Routledge Research in American Politics and Governance

Comprising careful analysis by leading experts on religion and politics in the United States, Gastón Espinosa’s book details how ten of the largest segments of the American electorate voted and why, drawing on the latest and best available data, interviews, and sources. The voting patterns of Mainline Protestants, Evangelicals, Catholics, Jews, Muslims, and seculars are dissected in detail, along with the intersection of religion and women, African Americans, Latinos, and Asian Americans. The story of Obama’s historic election is an insightful prism through which to explore the growing influence of religion in American politics.

Public Administration Research Methods

Tools for Evaluation and Evidence-Based Practice

Warren S. Eller, University of North Carolina, Pembroke, USA; Brian J. Gerber, University of Colorado Denver, USA and Scott E. Robinson, Texas A&M University, USA

Eller, Gerber, and Robinson guide the reader through critical issues by presenting intuitive explanations of difficult concepts, and by explaining not only techniques of qualitative research, but how qualitative data can be analyzed properly and how those data relate to quantitative data gathering and analytic techniques. Students can expect to come away from this text with a clear understanding of how qualitative and quantitative analysis can be explicitly tied to evidence-based public management decision-making.
